

## Objectives

The main objectives of The Soiled Company is to:

1. Acquire harvest directly from farmers at a pre-contracted price.
2. Value addition if required.
3. Sell both processed and unprocessed food products to businesses as well as consumers.
4. Setup crowd funded micro processing units.
5. Manage exchange establishments invested with our company.
6. Support farmers to setup their own value addition units to enhance sustainability
7. Develop a software application to acquire soil data , supply-demand data, etc. and analyse the data through AI platform.
8. Supply products to other food brands.
9. Distribute Soiled Company Brand products through independent as well as retail distributors.
